

Why This Book?

Few years ago, a personal tragedy made me realize that there is a very limited scope for cancer patients in the modern medicine. There are few treatment options which are full of side effects and after going through these side effects, most of the precious lives are lost.

My experience of treating few Cancer patients with Homeopathy made me fully convinced that there is tremendous potential for cancer treatment in Homeopathy. It made me study the application of Homeopathy for Cancer in detail. During my practice, I have studied almost all the literature available for Homeopathy and management of Cancer .

I discovered a Gold Mine for Cancer treatment in Homeopathic Science. I began with a small charitable clinic offering Homeopathic treatment to Cancer patients, exactly 5 years ago. As the work grew, I happened to meet and learn from Respected Dr Sarkar which resulted in the foundation of “Prayas Homeopathy and Cancer Research Foundation” along with my colleagues Dr Hardik Khamar, Dr Ritesh Jani, Dr Shizuko Nagasawa, Dr Vismay Thaker, and Dr Kausha Khamar. ‘Prayas’ has always aimed to offer standardized Homeopathic treatment to Cancer patients and promote research activities in the same field. Till now, Prayas holds four Cancer OPD’s affiliated with it in India.
